Professional Summary

Blockchain Developer, ML Engineer and Quantitative Developer with a BSc in Computer Science. Experienced building Solana smart contracts, NFT ecosystems, AI agents, quantitative trading engines, machine learning systems and scalable backend architectures for production-grade applications.

Core Competencies

- Solana, Anchor, Rust, NFTs, Tokenomics, Web3
- Python, SQL, TypeScript, JavaScript, FastAPI
- Machine Learning, AI Agents, LLM Integration
- PostgreSQL, MySQL, Oracle, SQLite
- Power BI, Tableau, Pandas, NumPy
- Git, Azure, VS Code

Technical Skills

- Solana, Anchor, Rust, NFTs, Tokenomics, Web3
- Python, SQL, TypeScript, JavaScript, FastAPI
- Machine Learning, AI Agents, LLM Integration
- PostgreSQL, MySQL, Oracle, SQLite
- Power BI, Tableau, Pandas, NumPy
- Git, Azure, VS Code

Career Highlights

- Built production trading and analytics systems in Python.
- Developed Solana blockchain applications and on-chain analysis tools.
- Designed NFT ecosystems with rarity, breeding and marketplace systems.
- Experience with AI agents, LLMs, ML systems and quantitative finance.
- Available immediately for remote international opportunities.

Featured Projects

NFT MMO Blockchain Ecosystem

Architected a blockchain-powered NFT ecosystem with collectible NFT characters, rarity systems, breeding mechanics, player-owned assets, minting architecture and SOL tokenomics on Solana.

Polymarket Automated Trading Hub

Built async trading infrastructure with FastAPI, WebSockets, PostgreSQL, Kelly Criterion risk management and AI market analysis.

Crypto Wallet Analyzer & Copy Trading Bot

Developed smart-money wallet tracking, portfolio analytics and automated copy trading with risk controls.

Gold Commodity ML Trading Bot

Created ML pipelines using XGBoost and LightGBM with walk-forward validation and automated execution.

Football Match Prediction System

Built Elo ratings, Dixon-Coles calibration and ML prediction pipelines with value betting analysis.

Education

BSc Computer Science

Varsity College, Durban, South Africa
Graduated: 2022
